Songs that live forever (Lyrics: Ina Wolf Singsang/BMG)

Verse:

turn up the volume
just a little bit more
this music sounds familiar,
I've heard it all before
wakes up old memories,
puts me in the right mood
makes me feel good,
makes me feel good, so good

Chorus:

songs that live on forever
melodies that don't stop haunting you
come and walk with me down memory lane
we'll take the old and make it new

Verse:

I dream myself back
when I first fell in love
it's turning me on,
can't ever get enough
yesterday's music
still makes my heart swing
and I can't help myself
but start to sing
start to sing

songs that live on forever
melodies that don't stop haunting you
come and walk with me down memory lane
we'll take the old ,we'll take the old
and make them new

bridge:

music has the power to bring tears to your eyes
and just like magic puts a smile back on your face
let this song go around the globe, unite the human race
music makes this world a better place

songs that live on forever
melodies that don't stop haunting you
come and walk with me down memory lane
we'll take the old and make it new
we'll take the old and make them new
