What do we mean to each other (Wolf/Wolf)

I'd rather know if you had turned the page
If you go faster than I do
Suddenly it's not so clear just what I am to you
Am I friend, am I lover, do we still need each other
When you touch me, when you touch me baby I can tell

What do we mean to each other, am I friend, am I lover is it over now
If this is it then why bother tell me where do we take it from here
What do we mean to each other am I friend ,am I lover, is it over now
Do you love me still or do you just mean well

I can see clearly how im hurting you
Every breath gives you a way
All we go on separate roads has gone in the way.
Am I friend, am I lover, do we still need each other
When you hold me, when you hold me baby I can tell

What do we mean to each other, am I friend, am I lover is it over now
If this is it then why bother tell me where do we take it from here
What do we mean to each other am I friend ,am I lover, is it over now
Do you love me still or do you just mean well

Time became a poison looking slowly on my home
Screwing all the memories, Is it tearing us apart
When you touch me, when you touch me baby I can tell

What do we mean to each other, am I friend, am I lover is it over now
If this is it then why bother tell me where do we take it from here
What do we mean to each other am I friend ,am I lover, is it over now
Do you love me still or do you just mean well

What do we mean to each other, am I friend, am I lover is it over now
If this is it then why bother tell me where do we take it from here
What do we mean to each other am I friend ,am I lover, is it over now
Do you love me still or do you just mean well

Do you love me still or do you just mean well
